213.388 Property; enhancement in value of remainder of parcel to be considered in determining compensation; duty to claim benefits.

Sec. 28. Enhancement in value of the remainder of a parcel, by reason of laying out, altering, widening or otherwise improving any highway or of changing the line thereof, or by any such action in combination with discontinuing a highway, shall be taken into consideration in determining compensation for the taking of any part of the parcel for any such highway purpose. In such case:

(a) The petitioner shall set forth in the petition the fact that such benefits are claimed and describe the construction proposed to be made which will create such enhancement. If the construction is not completed in substantial compliance with the plan upon which the petitioner based its claim of benefits the respondent, within 1 year of the completion of construction, may reopen the question of compensation. In such event the respondent is entitled to the difference between the value of his property as affected by the actual construction, and the value of his property as it would have been had construction been completed according to plan. The respondent shall not recover more compensation than he would have received had there been no claim of benefits.

(b) In response to such claim by petitioner, the respondent prior to trial may request the court to require petitioner to acquire that portion of the remainder of the tract from which the taking is to be made which petitioner claims to be benefited. The petitioner at any time before trial, may withdraw its claim of benefits and thereby avoid the effect of this paragraph.

(c) The petitioner shall have the burden of proof with respect to the existence of such benefits.

(d) Where the existence or amount of such benefits is disputed by the property owner, the petitioner may acquire the entire tract or parcel of land from which the proposed taking is to be made or the portion thereof which petitioner claims to be benefited.

Sec. 29. The date of valuation in all proceedings pursuant to this act shall be the date of filing the declaration of taking or the date of commencement of trial, whichever is earlier. The value of the property, and of any part thereof remaining after the taking, shall be determined with respect to the condition of the property and the state of the market on that date. Any enhancement or diminution in the value of the property before the proposed taking but not after the taking which is directly attributable to the proposed project or the announcement thereof shall be disregarded in arriving at such value and the property shall be valued in all cases as though the project had not been contemplated. Where a claim is made that the conduct of petitioner has resulted in a taking of property in the constitutional sense at a date earlier than the date of valuation set forth herein, such taking shall give rise to an action at law which may be prosecuted in the court of claims, if the petitioner is the state highway commission, or in the circuit courts of the several counties if the petitioner is a board of county road commissioners.

Sec. 27. Before laying out any highway under the provisions of this act where the same crosses the track and right of way of any railroad company, steam or electric, application shall be made to the Michigan public utilities commission for permission to make such crossing and thereupon it shall be the duty of said commission to cause such examination of the location of such proposed crossing as they may deem necessary. At such examination the railroad company and the township, good roads district, or county interested shall be entitled to be heard after the service of proper notice upon them by the Michigan public utilities commission. sonably safe for a crossing at grade, it shall then be the duty of said commission to grant permission for such crossing to the highway officials making such application, all such crossings to be made according to the specifications adopted by the Michigan public utilities commission. And it shall also be the duty of the said commission, if it deems it necessary for the safety of the traffic on said proposed highway crossing, to prescribe and order such protection to prevent accident thereat as in its judgment is necessary. But if after examination and hearing the Michigan public utilities commission determines that the proposed location is extra hazardous for a crossing at grade, it shall then be its duty to deny permission for such crossing and to require the crossing, if constructed at the said location, to be made other than at grade and according to plans to be submitted to the Michigan public utilities commission for its consideration and approval before the construction of the crossing is commenced. If the said commission determines that it is impracticable to secure a reasonably safe crossing at the point in question, either at grade or otherwise, it may refuse to allow such crossing. If permission is granted for such crossing, either at grade or otherwise, the same proceedings in relation to acquiring the rights of way for such highway across the land of said railroad company, including the right of way across the tracks shall be had as in other cases. Service of all papers shall be made in the same manner upon such railroad companies as is provided by law for service of summons on railroad companies. Such railroad companies shall construct and maintain such crossing and shall be paid annually by such township, good roads district or county, upon verified statements of account rendered therefor, the actual and necessary expense incurred by any railroad company in maintaining such crossing for each year that it is so maintained, and the actual value of the use of the land so used for the same period, and when the compensation awarded such railroad company for its annual damages as above provided shall have been paid or tendered to any person in charge of the ticket or freight office of such company entitled thereto, and situated nearest the said highway crossing, pursuant to the provisions of section 24 of this chapter, then and in such case, such right of way shall be deemed to be fully acquired and secured by and for the public. The highway officials shall then notify in writing such railroad company to furnish a competent superintendent or track man to superintend the construction of such crossing which shall be constructed according to the order of the Michigan public utilities commission issued in regard to said crossing; and such township, good roads district or county shall pay to such superintendent a sum not to exceed 5 dollars a day for a grade crossing and not to exceed 10 dollars a day for a crossing other than at grade, for the time actually and necessarily spent in superintending such construction. And such highway officials are authorized to issue orders for the payment of such superintendent. In case such railroad company refuses or neglects to furnish a superintendent for the construction of such crossing as aforesaid, then it shall be the duty of the Michigan public utilities commission to appoint some suitable person to superintend the construction of such crossing who shall receive the compensation aforesaid from said township, good roads district or county for such services. If any railroad company shall attempt to obstruct the opening of any such highway after such right of way has been secured and payment for damages herein provided for, has been made and tendered as herein provided by any agent, officer or employe or other person, the said railroad company shall be liable to a penalty of 25 dollars for each day the opening or construction of such highway is impeded, for the benefit of the township, good roads district or county, and such township, good roads district or county may sue for and recover such penalty in the circuit court for the county in which such crossing is located, in the name of the township, good roads district, or county; and in addition thereto if any officer, agent or employe or person acting for or in the interest of any railroad company shall annoy, hinder or obstruct any highway official, contractor or person employed by him or

them in opening such highway or constructing the same according to the order issued by the Michigan public utilities commission, then such officer, agent, employe or person shall be guilty of a misdemeanor and upon conviction thereof shall be fined not to exceed 100 dollars, or imprisonment in the county jail not to exceed 90 days, or by both such fine and imprisonment in the discretion of the court. All material and labor used in the construction of such crossing shall be furnished by the township, good roads district or county applying for such crossing. No public highway shall hereafter be constructed across the tracks of any railroad, nor shall the tracks of any railroad be constructed across a public highway without having first secured the permission of the Michigan public utilities commission. Said commission shall have power, when in their judgment they deem it necessary for the safety of the public, to change the location of or abolish any existing crossing of railroads with highways and to require, when in their judgment it would be practicable, a separation of grades at any such crossing and to prescribe the manner of construction and the terms upon which such separation shall be made and the proportion in which the expense of the alteration or abolition of such crossing or the separation of such grades shall be divided between the railroad corporation and the state, county, good roads district or township: Provided, That no disposition shall be made of this matter until after all parties in interest shall have been afforded an opportunity to be heard in relation thereto. The state's portion of the cost of such changes as may be ordered by the provisions of this act shall in no case exceed 25 percentum of the total cost of such improvement except that in the case of any such separation of grades on a trunk line road the proportion of the expense that is not borne by the railroad corporation concerned shall be divided between the state and the county, good roads districts or township, as the case may be, on the same basis as is or may be provided by law for the division of the cost of constructing trunk line highways. The amount to be paid by the state shall be paid from any state highway funds not otherwise appropriated upon the certificate of the state highway commissioner to the auditor general.

HISTORY: Am. 1915, p. 292, Act 175, Eff. Aug. 24;—CL 1915, 4314;—Am. 1921, p. 221, Act 101, Eff. Aug. 18;—Am. 1921, 1st Ex. Ses., p. 806, Act 31, Eff. Sept. 19;—CL 1929, 3943;—CL 1948, 221.27. Oct. 2;—As Am. 1893, p. 231, Act 145, Eff. Aug. 28;—CL 1897, 4068.

COMPILERS' NOTE: The title and enacting clause of Act 175 of 1915 are faulty in not specifying what sub-chapter is amended. The title and enacting section of Act 367 of 1921 indicate an intention to amend this section but no amendment was made in that act.

GRADE SEPARATION: See Compilers' § 253.1 et seq.

Such payment shall be made in money to the several persons entitled thereto, and if refused, or if there be no person properly authorized to receive the same, it shall be deposited as directed by the court. Upon filing proof of payment or deposit as ordered, the court shall prepare a certificate under its seal, signed by the judge, reciting briefly the proceedings that have been had, giving the names of the parties interested, describing the lands taken for such road, the award of damages therefor and the payment or deposit of the money, and deliver the same to the board of county road commissioners, and thereupon the title to such land shall be deemed vested in the county to be used for road purposes only. Such certificate shall be recorded in the book of deeds in the office of the register of deeds. Such certificate, certificates or the record thereof or a certified copy of such record, shall be prima facie evidence of the facts recited therein, and of title to such lands in the county and of the right of the board of county road commissioners to construct and maintain a road thereon. For similar provisions see Sec. 20 et seq. of Act 352 of 1925, being Compilers' § 213.190 et seq.

224.17 County line road; disagreement, arbitration; neglect of county commissioners; authority of state highway commissioner, deduction from county tax refunds.

Sec. 17. The boards of county road commissioners of adjoining counties may unite in laying out and establishing a county road on or near the line between their counties, and may institute proceedings to acquire the lands for such road, and may thereafter construct and maintain such road at the joint expense of the counties: Provided, That should any part of such line road either now established or hereafter to be established, become at any time abandoned, or should the division of such line road between such counties for opening, improvement and maintainance become at any time unjust and inequitable for any cause, then on the written application of 7 or more freeholders of either county, or upon application of the state highway commissioner addressed to the county road commissioners of either county, the commissioners to whom such application is made shall, within 5 days after receipt thereof, notify the county road commission of the adjoining interested county. Each commission shall thereupon appoint as arbitrator 1 of its own members, and the 2 shall forthwith jointly appoint a time and place of hearing which shall not be less than 10 nor more than 20 days after the receipt of the application. Notice of the time and place of such hearing shall be posted in 3 public places in each county affected, or published at least 1 time in a newspaper printed and circulated in each county affected, at least 5 days before the date of such hearing, and no other notice of same shall be required. Such hearing may be adjourned from time to time, but no longer than 20 days. At such hearings said arbitrators shall jointly determine whether the former division of such line road is just and equitable, and if not, shall determine and allot what portion of same shall thereafter be improved and maintained by either of such counties, which allotment shall take effect immediately thereafter. Should such arbitrators be unable to agree, then they shall adjourn such hearing, and on the adjourned day associate with themselves a county road commissioner of some other immediately adjoining county. Should the 2 arbitrators be unable to agree on the third arbitrator, then on notification of the state highway commissioner by the county road commission to which application for redivision has been made that they are unable to agree on the third arbitrator, the said state highway commissioner shall appoint a third disinterested party to sit in his place, and the 3 shall sit together and determine such questions by majority vote: Provided, further, That whenever a line road or bridge shall have been laid out or established, and the county road commissions refuse or neglect to construct or maintain their designated portion thereof in a manner reasonably safe and fit for public travel, then the state highway commissioner shall upon petition of 7 freeholders of either county, inspect the merits of the petition, and if said state highway commissioner decides with the petitioners, he shall direct the county road commission to which the road or bridge belongs to so construct and maintain such road or bridge, and in default thereof he shall be authorized to cause said road to be placed in condition safe and fit for public travel and pay for same out of the highway fund, reimbursing said fund by appropriate deduction from the next installment of weight and gasoline tax refunds due such county or counties.

224.18 State reward; map; conversion; determination, notice; name; inter-county roads; abandonment; discontinuance of jurisdiction; petition, list of occupants on abutting land.

Sec. 18. In case state reward is to be applied for, the board of county road commissioners shall file with the state highway commissioner, for his approval, a map of the county showing the location of the proposed system of county roads: Provided, however, That this proposed system may be changed if approved by the state highway commissioner. All state rewarded roads composing a part of this system shall be taken over as county roads by the board of county road commissioners and any road heretofore laid out, or any part thereof, shall become county roads if the board of county road commissioners shall at any time so determine, and in passing through or on the line between townships or incorporated villages or cities any streets or parts of streets of such village or city may be adopted as a county road, with the consent of the proper authorities of such city or cities, village or villages: Provided further, That where any such street shall be taken over as a county road and is improved as such, city and village authorities shall have the right to further improve such road by surfacing the same outside the portion thereof constructed by the county and by the addition of gutters, curbs, sidewalks, and other improvements, and to provide for the care and maintenance of such improvements, and to levy and collect taxes for the same. The vote of the county road commissioners in respect to such determination shall be taken by yeas and nays, and shall be entered at large on the records of the said board of county road commissioners. Notice of determination shall be forthwith given by the clerk to the highway commissioner of each township and the highway authorities of each city or village in which said road or any part thereof is situated, and published in some newspaper printed and circulated in the county, once in each week for 3 successive weeks: Provided further, In case there is no established printing office within the county, the said clerk, or the highway commissioner may advertise in a newspaper published in an adjoining county. Proof of such service and publication may be made by affidavit by any person knowing the facts, and be filed with the clerk. Such affidavit or the record thereof or certified copy of such affidavit or record shall be prima facie evidence of its contents. After service and publication of such notice, the board of county road commissioners shall have sole and exclusive jurisdiction and control of such road so embraced within such determination, and the township or municipality within which the same is situated shall be relieved from all responsibility therefor. Immediately after laying out or taking control of a road said board shall give the same a name and the board may thereafter change the name of said road if deemed necessary by said board in order to conform to a general plan or avoid confusion or duplication. The name so given by said board to any road under its jurisdiction, either originally or in case of a change as provided for in this section, shall thereafter be the official name by which said road shall be known. Said board is also empowered to enter into agreements with the board of county road commissioners in any adjoining county with reference to the laying out, maintenance, construction and improvement of inter-county roads, the undertaking of each such board becoming a party to any such agreement being limited to the construction, improvement, or maintenance of the portion of the road subject to the jurisdiction of such board. The board of county road commissioners of any county which has adopted the county road system is hereby authorized and empowered to, at any time, either relinquish jurisdiction of or absolutely abandon and discontinue any county road, or any part thereof, by a resolution adopted by a majority vote. The vote of the county road commissioners in respect to either such relinquishment of jurisdiction or absolute abandonment and discontinuance shall be taken and entered, and notice thereof be given, in the same manner as required in this section, in cases in which county roads are adopted. After proceedings to relinquish jurisdiction have been had,

the jurisdiction and control of such road, or part thereof, shall revert to the township or municipality within which the same is situated, and the county shall be relieved of the responsibility therefor. After proceedings to absolutely abandon and discontinue have been had, such road or part thereof shall cease to exist as a public highway. Said board shall, at the time of the passage of any resolution to absolutely abandon and discontinue any portion of any highway under its jurisdiction, determine in said resolution that it is to the best interests of the public that said highway or portion thereof shall be absolutely abandoned and discontinued. Said board shall cause a true copy of every resolution or other proceeding, containing an accurate description of the lands comprising the highway or portion thereof which has been absolutely abandoned and discontinued thereby, to be recorded in the office of the register of deeds for the county wherein the lands are situated: Provided, That the said board of county road commissioners shall not absolutely abandon and discontinue any highway, or part of highway, upon or along which there shall be any building of any character, except as hereinafter provided, upon the written petition of 7 or more freeholders of the township in which said road is sought to be absolutely abandoned and discontinued. Said petition for absolutely abandoning and discontinuing said highway shall describe said road in general terms or by any name by which it is known, and if the absolute abandonment and discontinuance of only a portion of any road is asked for, such portion shall be specified. Such petition shall be accompanied by a true and correct list of the names and mailing addresses of the occupants of each parcel of land abutting the highway, or portion thereof, sought to be absolutely abandoned and discontinued, which list shall be certified to under oath by 1 of the persons making or presenting such petition.

Abandonment, notice of hearing, service.

Whenever such petition for absolute abandonment and discontinuance of said road or portion thereof, shall contain the signatures of all of the owners of record and occupants of land abutting thereon, as ascertained from the records in the office of the register of deeds and the certified list above provided for, the board of county road commissioners shall, within 20 days after receiving the same, determine the advisability of such abandonment and discontinuance and either grant or deny said petition without further proceedings thereon. In all other cases said board shall, within 20 days after receiving such petition, issue a written notice stating the object of such petition and appointing a time and place of hearing, which notice shall be served on the owners of record and occupants of lands through or adjoining which it is proposed to absolutely abandon and discontinue such road, by mailing a copy thereof by first class mail to the residence of each owner of record or occupant at his last known address, at least 10 days before the time of hearing, and if the owner shall not reside upon such lands and/or the owner of record or occupant thereof cannot be found within the county in which said lands are situated, the notice to the owner of record or occupant of such lands shall be served by posting up the same in 3 public places in the township in which said road is situated, and by publishing the same in a newspaper circulated within the county, 10 days before the time of hearing. Notice shall be served upon railroad companies by leaving a copy thereof with the agent in charge of any ticket or freight office of the company operating such railroad, on the line thereof.

Affidavit of service; hearing examiner, report of findings.

Upon the service of the notice required by the last preceding paragraph, and before any further proceedings shall be had, the person by whom the service was made shall make and annex to such notice, or a copy thereof, an affidavit stating the time and manner of service, which shall be by first class mail, and by posting and advertising; and if upon a railroad company, the fact of such service and upon whom, and such notice and affidavit, together with an affidavit of publication if such notice was pub-

Within 30 days after final determination upon the petition for absolutely abandoning and discontinuing any highway, as hereinbefore provided, the said board of county road commissioners shall file with the state highway commissioner a full record and return of their doings.

224.20 County road commissioners; surveys; tax, determination, maximum; submission to supervisors, revision, apportionment; tax levy, collection, disbursement.

Sec. 20. Before the first day of October of each year said board of county road commissioners shall cause preliminary surveys, general plans, specifications and estimates of roads, bridges and culverts to be made by the county highway engineer, whose qualifications shall be approved by the state highway commissioner in case it is intended by the commissioners to apply for said reward. At the annual meeting of the board of supervisors held in October, the county clerk shall lay such determination before the board of supervisors, and such board of supervisors shall pass upon the said determination, and if a majority of such board of supervisors agree therewith, then such tax shall be apportioned among the several townships and cities of said county according to their equalized valuation. If the determination of the board of county road commissioners shall not meet with the approval of a majority of the board of supervisors, then the said board of supervisors shall proceed to decide upon the amount of tax to be raised for such year in such county for the purposes aforesaid, and may allow or reject in whole or in part any or all of the items for the sections of roads thus submitted for its consideration; and it shall not be lawful for such county road commissioners without the consent of such board of supervisors to spend any such moneys upon any other roads than as thus specified. It shall be the duty of the board of supervisors to raise a sufficient tax to keep any county roads or bridges already built in reasonable repair, and in condition reasonably safe and fit for public travel. After the said board of supervisors shall have decided upon the amount of tax to be raised, the said board shall thereupon apportion such tax between the several townships and cities of said county according to their equalized valuation. The supervisors or other assessing officers in such townships and cities shall levy and apportion the taxes so apportioned as provided in this section, to their respective townships and cities respectively, upon which the county taxes are assessed. The taxes so assessed shall be collected and paid to the county treasurer the same as other county taxes. All the provisions of law relating to the assessment, levy, collection and return of county taxes and the sale of property delinquent therefor, shall apply to taxes to be raised pursuant to this act. The county treasurer shall keep a separate account of the taxes collected and moneys received under this act and shall pay the same out only upon the order of such board of county road commissioners and upon warrants signed by the chairman and countersigned by the clerk of the board. In counties having a county auditor or board of county auditors the warrants shall pass through the hands of such county auditors and be further countersigned by them, when payment shall be made thereof by the county treasurer. All moneys raised under the provisions of this act shall be expended by such board of county road commissioners exclusively for the purposes herein mentioned.

Sec. 20b. (1) Notwithstanding any other provision of this act, the board of supervisors of any county by proper resolution may submit to the electorate of the county at any general or special election the question of a tax levy for highway, road and street purposes.

(2) Unless otherwise agreed by the governing bodies of the cities and villages and the board of county road commissioners the revenues derived from the tax levy authorized by this section shall be allocated and distributed by the county treasurer as follows:

It shall be the duty of said county treasurer to deposit all moneys in his custody belonging to any such body so that the same shall draw interest, in some bank or banks approved by the board of supervisors or by the state highway commissioner. The interest so drawn shall accrue to and become a part of the fund. Such shortage may be raised and collected in 1 installment, for which the county road commissioners or the state highway commissioner shall make their special assessment roll. Such roll shall be collected at the same time state, county and township taxes are collected. In case there is a surplus after completing the improvement amounting to 3 per cent or more of the cost of the improvement, such surplus shall be refunded or credited on the next installment of the assessment pro rata according to their assessments whether due from individuals or municipalities; where the surplus is less than 3 per cent and more than 1 per cent such surplus shall be credited to the road fund to which it belongs and applied to reducing the payments on the last annual installment, or if there is more money than is required to pay the last installment it shall be applied to reducing the last preceding installment or installments pro rata to their assessments whether due from individuals or municipalities; but any surplus less than 1 per cent shall constitute a maintenance fund to be expended under the direction of the county road commissioners or the state highway commissioner as the case may be, for the proper maintenance and repair of such road, and the state highway commissioner or the board of county road commissioners, as the case may be, shall make such refund or give such credit in all cases of roads heretofore built in which such funds may not already have been expended under the provisions of this act prior to this amendment: Provided, however, That in case such surplus amounts to $15,000.00 or less on roads already constructed under the provisions of this act, and where said road is being maintained by the county road commissioners, such surplus may be transferred by the county road commissioners to a fund to be established as a

If but 2 counties are concerned, and if the members appointed therefrom are unable to agree, such members shall select a third member of the board, who shall be a competent and disinterested freeholder from another county of the state. Notice of such appointment shall be given to the state highway commissioner who shall notify the member so appointed thereof and thereupon the members of the board shall proceed in the same manner as is herein provided in the case of a board appointed within 1 county by the probate court thereof. In case of the selection of a third member of the board as herein provided the state highway commissioner shall fix the time and place of meeting of the board to be held thereafter and shall notify all members accordingly.

(3) The equal parts shall be distributed among all counties having more than 70 inches of measured snowfall during the prior fiscal year on the basis of inch miles of measured snowfall in the following manner:

(a) Each participating county shall receive a proportionate share as hereinafter specified of each of the equal parts for that part of the inch miles of measured snowfall of the county which results from the amount of measured snowfall of the county during the prior fiscal year within each of the following limits: Over 70 inches up to and including 75 inches; over 75 inches up to and including 80 inches; over 80 inches up to and including 85 inches; over 85 inches up to and including 90 inches; over 90 inches up to and including 95 inches; over 95 inches up to and including 100 inches; over 100 inches up to and including 105 inches; over 105 inches up to and including the maximum measured snowfall of any county in the state.

(b) Each of the equal parts shall be distributed among the counties entitled thereto in the same proportion as that county's inch miles of measured snowfall within the limits assigned to such equal part, bears to the total inch miles of measured snowfall of all counties within such limits.

(c) The allocation of each equal part shall be based upon any number of inches of snowfall from 0 to 5, except that in the allocation of the final or last equal part, in which any county participates, any inches of measured snowfall in that county in excess of the 5 inches to which that equal part is assigned, shall be included in computing the allocation from such equal part to such county.

(d) As used in this section the phrase "measured snowfall" shall mean the average of the inches of snowfall in any county determined from measurements taken by the U.S. weather bureau. As used in this section the phrase "inch miles of measured snowfall" shall mean the inches of measured snowfall in the county multiplied by the total miles of road in the county road system of the county.

The amount received by such newly incorporated municipality shall be in lieu of any other direct distribution of funds from the motor vehicle highway fund. The population of such newly incorporated municipality as determined under the procedure herein described shall be added to the total population of all incorporated cities in the state as shown by the most recent statewide federal census for purposes of determining such total population in computing the amounts to be returned under the provisions of this section to each municipality in the state. Any other provisions of this act to the contrary notwithstanding, major street mileage, local street mileage, and equivalent major mileage, if applicable, shall be determined by the highway commission prior to the next calendar quarter for which distribution is made following the effective date of incorporation of a newly incorporated municipality.

Major street system, roadside parks and motor parkways.

(a) Seventy-five percent of the total amount to be returned to the incorporated cities and villages shall be returned 60% thereof in the same proportion that the population of each bears to the total population of all incorporated cities and villages in the state, and 40% thereof in the same proportion that the equivalent major mileage in each bears to the total equivalent major mileage in all incorporated cities and villages in the state. The term "equivalent major mileage" shall mean the sum of 2 times the state trunk line mileage certified by the state highway commission as of March 31 of each year, as being within the boundaries of each incorporated city and village having a population of 30,000 or more, plus the major street mileage in each incorporated city and village, said sum multiplied by the following factor:

1.0 for cities and villages of 2,000 or less population;
1.1 for cities and villages from 2,001 to 10,000 population;
1.2 for cities and villages from 10,001 to 20,000 population;
1.3 for cities and villages from 20,001 to 30,000 population;
1.4 for cities and villages from 30,001 to 40,000 population;
1.5 for cities and villages from 40,001 to 50,000 population;
1.6 for cities and villages from 50,001 to 65,000 population;
1.7 for cities and villages from 65,001 to 80,000 population;
1.8 for cities and villages from 80,001 to 95,000 population;
1.9 for cities and villages from 95,001 to 160,000 population;
2.0 for cities and villages from 160,001 to 320,000 population;

and for cities over 320,000 population, by a factor of 2.1 increased successively by 0.1 for each 160,000 population increment over 320,000. The 75% so returned shall be used by each incorporated city and village for the following purposes in the following order of priority:

(1) For the payment of contributions required to be made by a city or village under the provisions of contracts heretofore entered into under the provisions of Act No. 205 of the Public Acts of 1941, as amended, which contributions have been heretofore pledged for the payment of the principal and interest on bonds issued under the provisions thereof; or for the payment of the principal and interest upon bonds issued by a city or village pursuant to the provisions of Act No. 175 of the Public Acts of 1952, as amended, being sections 247.701 to 247.707 of the Compiled Laws of 1948.

The jury shall hear the proofs and allegations of the parties and the arguments of counsel and if so ordered by the court to go to the place of intended improvement, and in charge of an officer, and upon, or as near as practicable, to any property claimed to be damaged in making the same and examine the premises. They shall be instructed as to their duties and the law in the case by the court, and shall retire in charge of an officer and render their verdict in the same manner as on the trial of an ordinary civil case. Sec. 16. The jury shall in their verdict, ascertain and determine the necessity for the separation of the grades of said street or highway, and of said railroad or railroads, as proposed in said petition. And the said jury shall assess in their said verdict the total compensation by them awarded for damages for such property as may be damaged by such improvements to the parties interested therein and to any street railroad company, and also assess the amount determined by said report of the crossing board to be paid by said city, township or county, as its fair share of the expense of the work to be done said railroad company or companies, when the crossing is within the limits of the petitioner, against the petitioner, and in all other cases against the city, and county or counties, township or townships as the case may be that are parties to the proceedings in equal shares. Said last mentioned amount to be assessed in favor of and to be paid to said railroad company or companies. And they shall likewise assess against the said railroad company or companies and in favor of and to be paid to said city, county or township the portion of the cost or expense which it was determined by said crossing board would be just and equitable, that said company or companies should pay to the petitioner or other body politic to whom the same are awarded in the report of said crossing board. Amendments either in form or substance may be allowed in any paper, petition, resolution, process, record or proceeding, or in the description of property damaged or claimed to be damaged or in the name of any person whether contained in the resolution or certificate of the representative board or officer, in the petition of property owners or in the report of railroad and street crossing board or elsewhere, wherever the amendment will not interfere with the substantial rights of the parties. There shall be submitted with said application proposed profiles, plans, maps and specifications therefor, showing the portions of the street or highway and the railroad or railroads, the grade of which is to be changed, and the details of construction necessary for such improvements. If said authorities, where permitted by law, have agreed with the railroad or railroads upon such separation of grades and the profiles, plans, maps and specifications therefor, a copy of such agreement shall be attached to said application.

The principal and interest of such bonds shall be payable solely from the special fund herein provided for such payment. Such revenue bonds shall bear interest at not more than 6 per centum per annum, payable semi-annually, and shall mature at such time or times not more than 40 years from their date or dates as may be fixed by such resolution. All such revenue bonds may be made redeemable before maturity at the option of the commission at such price or prices and under such terms and conditions as may be fixed by the commission prior to the issuance of the bonds. In case any of the officers whose signatures appear on the bonds and coupons shall cease to be such officers before the delivery of such bonds, such signatures shall nevertheless be valid and sufficient for all purposes the same as if they had remained in office until such delivery. All such revenue bonds shall have and are hereby declared to have all the qualities and incidents of negotiable instruments under the negotiable instruments law of the state. Such bonds shall be exempt from all taxation, state, county and municipal, and unless otherwise provided by law, shall be lawful investments in the same manner and to the same extent as other bonds of the state. The commission may sell such bonds in such manner and for such price as it may determine to be for the best interests of the state, taking into consideration the financial responsibility of the purchaser and the terms and conditions of the purchase, and especially the availability of the proceeds of the bonds when required for payment of the cost of the works, but no such sale shall be made at a price so low as to require the payment of more than 6 per cent interest on the money received therefor, computed with relation to the absolute maturity of the bonds in accordance with standard tables of bond values. The proceeds of such bonds shall be used solely for the payment of the cost of the works, or, in the case of refunding bonds, for the payment of the revenue bonds refunded, and shall be checked out in such manner and under such restrictions, if any, as the commission may provide. If the proceeds of the revenue bonds, by error of calculation or otherwise, shall be less than the cost of the works, additional bonds may in like manner be issued to provide the amount of such deficit and, unless otherwise provided in the trust indenture hereinafter mentioned, shall be deemed to be of the same issue and shall be entitled to payment from the same fund, without preference or priority of the bonds first issued for the same works. If the proceeds of bonds issued for any such works shall exceed the cost thereof, the surplus shall be paid into the fund hereinafter provided for the payment of principal and interest of such bonds. Prior to the preparation of definitive bonds, the commission may under like restrictions issue temporary bonds with or without coupons, exchangeable for definitive

Such tolls shall not be subject to supervision or regulation by any other commission, board, bureau or agency of the state. Such pledge shall be valid and binding from the time when the pledge is made; the tolls and other revenues or other moneys so pledged and thereafter received by the authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the authority, irrespective of whether such parties have notice thereof. Neither the resolution nor any trust agreement by which a pledge is created need be filed or recorded except in the records of the authority. The use and disposition of moneys to the credit of such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust agreement. Except as may otherwise be provided in such resolution or such trust agreement, such sinking fund shall be a fund for all such bonds without distinction or priority of one over another.

Any such sale or exchange shall be subject to the approval of the state administrative board. The board may enter into such contracts for fiscal agents' services in connection with the financing of the bridge as may be approved by the state administrative board, or the state treasurer may be used as fiscal agent.

Principal of and interest and redemption premiums on the bonds issued hereunder shall be payable solely from the revenues of the authority, except that said payments may also be made from the proceeds of refunding bonds issued hereunder and capitalized interest may be paid from the proceeds of the bonds. Such bonds may be either serial bonds, or term bonds, or any combination thereof. Serial bonds may be made redeemable prior to maturity at such price or prices and under such terms and conditions as may be prescribed in the resolution of the board, and recited upon the face of the bonds.

All such bonds shall contain a statement on their face that neither the bonds nor the coupons representing interest thereon constitute an indebtedness of the state of Michigan within the meaning of any constitutional limitations or prohibitions and that neither the authority nor the state is authorized to pay such bonds or interest except from the revenues pledged thereto under the provisions of this act. In case any official whose signature appears on such bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature shall nevertheless be valid and sufficient for all purposes with like effect as though such person had remained in office until delivery. All such bonds are hereby declared to be fully negotiable and to have all of the qualities incident to negotiable instruments under the negotiable instruments law of the state, subject only to the provisions for registration of the bonds which may appear therein. Such bonds shall be exempt from all taxation by the state or any of its political subdivisions and shall be sold at public sale after notice at least 5 days before the sale in a publication approved by the municipal finance commission for the carrying of such notice, but no such sale shall be made at a price that will result in an interest cost of more than 6 per cent per annum: Provided, however, That all or any part of such bonds may be sold to the United States government or any agency thereof, at private sale, without public offering and the authority is authorized to enter into any agreements or contracts with the United States government or any of its agencies necessary to provide for the financing of the bridge in the manner contemplated by this act. The amounts so paid shall be based upon requisitions of the authority subject to the audits hereinbefore described in this act. (3) A statement of the applicant's title and the names and addresses of the holders of any security interests in the vehicle and in any accessory thereon, in the order of their priority.

If the department is not satisfied as to the ownership of the vehicle, before registering the vehicle and issuing a certificate of title therefor, the department may require the applicant to file a properly executed surety bond in a form prescribed by the department, executed by the applicant and a company authorized to conduct a surety business in this state. If the dealer fails to apply for title, when required, and to transfer or secure registration plates and secure a certificate of registration, and pay the required fees within 15 days of delivery of the vehicle, a title and registration for the vehicle may be acquired thereafter only upon the payment of a transfer fee of $5.00 in addition to the fees provided for in section 806.

Notwithstanding any other provision of this act or of Act No. 94 of the Public Acts of 1937, as amended, being sections 205.91 to 205.111 of the Compiled Laws of 1948, a licensed dealer or junk dealer who purchases a vehicle for the purpose of destroying or junking the vehicle may accept a certificate of title which has been assigned to the transferor by a properly indorsed and notarized assignment on the back of the certificate of title. In such case, the dealer shall write the word "junk" on the face of the certificate of title above the signature of the dealer or his authorized agent and forward the certificate to the secretary of state, together with a fee of $4.00 in lieu of all fees and taxes otherwise applicable. This section shall not apply to any transfer unless the fee and certificate of title are received by the secretary of state within 10 days of the date of its purchase by the dealer. 257.236 Transfer of ownership of vehicle by operation of law; sole property of small estate.

Sec. 236. When ownership of any vehicle shall pass by operation of law, the person so acquiring such vehicle, upon furnishing satisfactory proof to the secretary of state of such ownership, may procure a title to the vehicle regardless of whether a certificate of title has ever been issued. Upon death of an owner of a registered vehicle, the license plates assigned thereto, unless the vehicle is destroyed, shall be deemed a valid registration until the end of the registration year or until the ownership of the vehicle is transferred by the executor or administrator of the estate of the owner. In event of the death of an owner of 1 or more vehicles whose total value does not exceed $1,500.00, who does not leave other property necessitating procuring of letters of administration or letters testamentary as required in section 50 of chapter 2 of Act No. 288 of the Public Acts of 1939, being section 702.50 of the Compiled Laws of 1948, the surviving husband or wife, or next of kin in the order named in section 51 of said chapter, may apply for a title, after first having furnished the secretary of state proper proof of the death of the registered owner, attaching thereto an affidavit setting forth the fact that the applicant is the surviving husband or wife, or next of kin, and upon proper petition the secretary of state shall furnish applicant with a certificate of title.

257.236a Enforcement of security interest; transferee, duties.

Sec. 236a. (a) If the interest of the owner in a vehicle is terminated by the enforcement of a security agreement, the transferee of the owner's interest shall promptly mail or deliver to the secretary of state the last certificate of title if he has possession thereof, his application for a new certificate in the form prescribed by the secretary of state, and an affidavit made by or on behalf of the holder of the security interest so enforced that the vehicle was repossessed, that the interest of the owner was lawfully terminated by enforcement of the security agreement, and whether he has delivered the last certificate of title to the transferee of the owner's interest, naming him, or if not, the reason therefor and the then location of such certificate of title so far as known to him. If the holder of the security interest succeeds to the interest of the owner and holds the vehicle for resale, he need not secure a new certificate of title but, upon transfer to another person, shall promptly mail or deliver to the transferee or to the secretary of state the certificate, if in his possession, the affidavit and other documents required to be sent to the secretary of state by the transferee.

(c) A person holding a certificate of title where the interest of the owner named therein has been terminated in the manner provided by subsections (a) or (b) of this section shall mail or deliver the certificate to the department upon its request. The delivery of the certificate pursuant to the request of the department does not affect the rights of the person surrendering the certificate, and the action of the secretary of state in issuing a new certificate of title as provided herein is not conclusive upon any rights of an owner or holder of a security interest named in the old certificate.

(d) The secretary of state, upon receipt of an application for a new certificate of title by a transferee in the manner provided by subsections (a) or (b) of this section, with proof of the transfer, the required fee and any other documents required by law, shall issue a new certificate of title in the name of the transferee as owner, setting forth all security interests noted on the last certificate of title as having priority over the security agreement so enforced and shall mail or deliver the same to the owner. 257.252 Reports as to vehicles stolen and recovered.

Sec. 252. (a) Every sheriff, chief of police or peace officer upon receiving reliable information that any vehicle registered hereunder has been stolen shall immediately report such theft to the department upon forms provided by it, unless prior thereto information has been received of the recovery of such vehicle. Any said officer upon receiving information that any vehicle, which he has previously reported as stolen, has been recovered, shall immediately report the fact of such recovery to the local sheriff's office or police department and to the department.

Abandoned vehicles; custody, notice; sale.

(b) The sheriff or any other peace officer shall take into custody all vehicles found abandoned on a street or highway or any other place, whether public or private. For purposes of this section, a vehicle is deemed abandoned when it has remained on a public street or highway or other place open to travel by the public, for a period of 48 hours or more, without notification by the registered owner to the sheriff or other peace officer of the reasons for leaving the vehicle in the public place. For purposes of this section, a vehicle is deemed abandoned on private property when it has remained on the private property for a period of 48 hours or more, without the consent of the owner or lessee of the property, or for a period of 48 hours or more after the consent has been revoked. Within 10 days after taking the vehicle into custody, the sheriff or other peace officer shall notify the department of state on a form prescribed by the department. Upon receipt of the notice, the department shall check its records to determine if the vehicle is currently registered in this state. If the vehicle is currently registered, the department shall notify the registered owner, by certified mail, and all known lien holders, if any, as shown by the records of the department, by first class mail, that the vehicle has been deemed an abandoned vehicle. The notice shall also state the location of the vehicle; the name of the officer in whose custody it is held; and that the vehicle will be sold at public or private sale if it is not claimed. At any time within 45 days after the date of the notice to the registered owner and lien holders, the registered owner or any lien holder may claim the vehicle by paying all charges which are due. If neither the registered owner nor any lien holder claims the vehicle and pays the charges, the sheriff or other peace officer may sell the vehicle at public or private sale at anytime [sic] thereafter. Any surplus received at the sale, after all charges of the sheriff or other peace officer have been paid and satisfied and all costs of sale have been deducted, shall be returned to any lien holder who has given notice to the sheriff or other peace officer of his claim of lien, within 45 days after the date of the notice to the registered owner and lien holders, and the balance, if any, shall be returned to the registered owner of said vehicle.

Unregistered abandoned vehicle, disposition.

(c) If the department finds that the vehicle is not currently registered in this state, it shall notify the sheriff or other peace officer who may sell the vehicle at public auction after publishing, at least once, in a newspaper printed and circulated in the county in which the vehicle was abandoned, a notice containing a description thereof, stating that the vehicle will be sold at public auction at a date, time and place specified therein, not less than 30 days after the date of publication. If any person, prior to the date of sale specified in the notice, establishes to the satisfaction of the sheriff or other peace officer either that he is the owner of the vehicle, or that he is the holder of a lien against it, the person may claim the vehicle by paying all charges and costs which are due, including the cost of publication. If the abandoned vehicle bears a registration plate issued by any other state or country, the department of state may notify the motor vehicle administrator or other appropriate official of the other state.

Abandoned vehicle valued at less than $100.00, disposition.

(d) If any vehicle found abandoned on a street or highway or any other place, whether public or private, has a value of less than $100.00, the sheriff or other peace officer may deliver it to a garagekeeper within the county where the vehicle is found abandoned, and the garagekeeper, after giving the notice and holding the vehicle for the specified time, may apply for a title for the vehicle in his own name. Whenever a vehicle is turned over to a garagekeeper by a sheriff or other peace officer, the garagekeeper shall notify the department, on a form prescribed by it, within 10 days of the date the vehicle is delivered into his custody. In addition to other information which may be required by the department, the notice shall set forth a description of the vehicle; the value of the vehicle when impounded; and the official capacity of the officer who ordered the vehicle impounded. On receipt of the notice, the department shall check its records to determine if it is currently registered in this state. If the vehicle is currently registered, the department shall send a notice to the registered owner, by certified mail, and to all lien holders, if any, as shown by the records of the department, by first class mail, that the vehicle has been placed in the custody of the garagekeeper and that if it is not claimed within 15 days of the date of the notice, by the registered owner or lien holder, and all charges paid, the garagekeeper may obtain a certificate of title in his name for the vehicle, free and clear of all liens and encumbrances. All vehicles shall be stored a minimum of 30 days before a certificate of title is obtained. If the vehicle is not currently registered in this state, the department shall notify the garagekeeper. Thereafter, the garagekeeper may sell the vehicle at public auction after publishing, at least once, in a newspaper printed and circulated in the county in which the vehicle was abandoned, a notice containing a description of the vehicle, reciting that it is deemed an abandoned vehicle, and that it will be sold at public auction at a time and place specified therein, not less than 30 days after date of the publication. At the public sale, the garagekeeper may bid for and purchase the vehicle. If prior to the date of sale specified in the notice, any person establishes to the satisfaction of the sheriff or other peace officer either that he is the registered owner of the vehicle, or that he is the holder of a lien against it, he may reclaim it by paying all charges and costs which are due. If the abandoned vehicle bears a registration plate issued by any other state or country, the department of state may notify the motor vehicle administrator or other official of the other state.

Vehicle left at garage by other than registered owner.

(e) Any vehicle left in a garage for more than 10 days, where the same has not been left by the registered owner under a contract of service, storage or repair, shall be deemed an abandoned vehicle, and shall be reported by the garagekeeper to the sheriff of the county or the police department of the unit of government in which the ga-

257.612 Traffic-control signal legend; signals over travelled portion of roadway.

Sec. 612. Whenever traffic is controlled by traffic-control signals, at least 1 signal shall be located over the traveled portion of the roadway so as to give drivers a clear indication of the right of way assignment from their normal positions approaching the intersection. The vehicle signals shall exhibit different colored lights successively 1 at a time, or with arrows. The following colors shall be used and said terms and lights shall indicate and apply to drivers of vehicles as follows:

(a) Green indication.

Vehicular traffic facing the signal, except when prohibited under section 664 may proceed straight through or turn right or left unless a sign at such place prohibits either such turn. But vehicular traffic, including vehicles turning right or left, shall yield the right of way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.

(b) Steady yellow indication.

Vehicular traffic facing the signal shall stop before entering the nearest crosswalk at the intersection or at a limit line when marked, but if such stop cannot be made in safety, a vehicle may be driven cautiously through the intersection.

(c) Steady red indication.

Vehicular traffic facing a steady red signal alone shall stop before entering the crosswalk on the near side of the intersection or at a limit line when marked, or if none, then before entering the intersection and shall remain standing until a green indication is shown.

(d) Arrow indications.

(1) Green arrow (steady): Vehicular traffic facing a green arrow signal, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by such arrow, or such other movement as is permitted by other indications shown at the same time. Vehicle traffic shall yield the right of way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

(2) Red arrow (flashing): When a red arrow is illuminated by rapid intermittent flashes, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection or at a limit line when marked or if none then before entering the intersection and shall then be privileged to make the movement indicated if no interference is offered pedestrians or vehicles lawfully on the highway.

(e) If a traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a

(4) Red with arrow. Pedestrians facing such signal shall not enter the highway unless they can do so safely without interfering with any vehicular traffic.

(b) Whenever special pedestrian-control signals are installed they shall be placed at the far end of each crosswalk and shall indicate a "walk" or "don't walk" interval. These special signals shall apply to pedestrians only to the exclusion of any regular traffic-control signal or signals which may be present at the same location.

(2) Don't walk (steady burning or flashing) interval—No pedestrian shall start to cross the highway in the direction of such signals, but any pedestrian who has partially completed his crossing on the walk interval of such signal shall proceed to a sidewalk or safety island while the don't walk interval of the signal is showing.

257.705 Brakes.

Sec. 705. (a) Brake equipment required as follows:

(1) Every motor vehicle, other than a motorcycle, or motor driven cycle when operated upon a highway shall be equipped with brakes adequate to control the movement of and to stop and hold such vehicle, including 2 separate means of applying the brakes, each of which means shall be effective to apply the brakes to at least 2 wheels. If these 2 separate means of applying the brakes are connected in any way, they shall be so constructed that failure of any one part of the operating mechanism shall not leave the motor vehicle without brakes on at least 2 wheels.

(2) Every motorcycle or motor driven cycle, when operated upon a highway shall be equipped with at least 2 brakes, 1 on the front wheel and 1 on the rear wheel, which may be operated by hand or foot.

(3) Every trailer or semitrailer of a gross weight of 3,000 pounds or more when operated upon a highway shall be equipped with brakes adequate to control the movement of and to stop and to hold such vehicle and so designed as to be applied by the driver of the towing motor vehicle from its cab.

(4) Every new motor vehicle, trailer or semitrailer hereafter sold in this state and operated upon the highways shall be equipped with service brakes upon all wheels of every such vehicle, except any motorcycle or motor driven cycle, and except that any semitrailer of less than 1,500 pounds gross weight need not be equipped with brakes. The provisions of this subparagraph shall not apply to a trailer or semitrailer owned by a farmer and used exclusively in connection with the farming operations of such farmer and not used for hire.

(5) In any combination of motor driven vehicles, means shall be provided for applying the rearmost trailer brakes, for any trailer equipped with brakes, in approximate synchronism with the brakes on the towing vehicle and developing the required braking effort on the rearmost wheels at the fastest rate; or means shall be provided for applying braking effort first on the rearmost trailer equipped with brakes; or both of the above means capable of being used alternatively may be employed.

(6) Every motor vehicle and combination of vehicles, except pole trailers, motorcycles and motor driven cycles, shall be equipped with parking brakes adequate to hold the vehicle on any grade on which it is operated, under all conditions of loading on a surface free from snow, ice or loose material. The parking brakes shall be capable of being applied in conformance with the foregoing requirements by the driver's muscular effort or by spring action or by equivalent means. Their operation may be assisted by the service brakes or other source of power if failure of the service brake actuation system or other power assisting mechanism will not prevent the parking brakes from being applied in conformance with the foregoing requirements. The parking brakes shall be so designed that when once applied they shall remain applied with the required effectiveness despite exhaustion of any source of energy or leakage of any kind. The same brake drums, brake shoes and lining assemblies, brake shoe anchors and mechanical brake shoe actuation mechanism normally associated with the wheel brake assemblies may be used for both the service brakes and the parking brakes. If the means of applying the parking brakes and the service brakes are connected in any way, they shall be so constructed that failure of any one part shall not leave the vehicle without operative brakes.

(7) The brake shoes operating within or upon the drums of the vehicle wheels of any motor vehicle may be used for both service and hand operation.

257.724 Stopping vehicles for weighing.

Sec. 724. (a) Any police officer or any duly authorized agent of the state highway department or a county road commission having reason to believe that the weight of a vehicle and load is unlawful may require the driver to stop and submit to a weighing of the same by means of either portable or stationary scales approved and sealed by the state department of agriculture as a legal weighing device and may require that such vehicle be driven to the nearest weighing station of the state highway department for the purpose of allowing said officer or agent of the state highway department or county road commission to determine whether such conveyance is loaded in conformity with the provisions of this chapter.

Overweight vehicle, unloading; bond; impounding.

(b) Whenever the officer or agent upon weighing a vehicle and load determines that the weight is unlawful, the officer or agent may require the driver to stop the vehicle in a suitable place and remain standing until such portion of the load is shifted or removed as may be necessary to reduce the gross axle load weight of such vehicle to the limit permitted under this chapter. All material so unloaded shall be cared for by the owner or operator of such vehicle at the risk of such owner or operator. Any judge or magistrate imposing a fine and costs under this section which are not paid in full immediately or for which a bond is not immediately posted in double the amount of such fine and costs, shall order the driver or owner to move the vehicle at his own risk to a place of safekeeping within the jurisdiction of the judge or magistrate, inform the judge or magistrate in writing of the place of safekeeping, and there keep the vehicle until the fine and costs are paid or sufficient bond furnished or until the judge or magistrate shall be satisfied that the fine and costs will be paid. The officer or agent who has determined, after weighing a vehicle and load, that the weight is unlawful, may require the driver to proceed to a magistrate within the county. If the magistrate is satisfied that the probable fine and costs will be paid by the owner or lessee, he may allow the driver to proceed, after the load has been made legal. If the magistrate is not satisfied that the owner or lessee, after a notice and a right to be heard on the merits is given, will pay the amount of the probable fine and costs, the magistrate may order the vehicle to be impounded until trial on the merits is completed under conditions set forth in this section for the impounding of such vehicles after the fine and costs have been imposed. Removal of the vehicle, and forwarding, care or preservation of the load shall be under the control of and at the risk of the owner or driver. Vehicles impounded shall be subject to a lien, subject to any prior valid bona fide lien of prior record in the amount of such fine and costs and if the same are not paid within 90 days after such seizure, said judge or magistrate shall certify such unpaid judgment to the prosecuting attorney of the county in which the violation occurred, who shall proceed

(c) Any owner of any vehicle as defined in this act, or any lessee of the vehicle of an owner-operator, who causes or allows a vehicle to be loaded and driven or moved on any highway, when the weight of that vehicle violates the provisions of section 722 is guilty of a misdemeanor and upon conviction thereof shall be assessed a fine in an amount equal to 2 cents per pound for each pound of excess load over 1,000 pounds when the excess is 2,000 pounds or less; 4 cents per pound of excess load when the excess is over 2,000 pounds but not over 3,000 pounds; 6 cents per pound for each pound of excess load when the excess is over 3,000 pounds but not over 4,000 pounds; 8 cents per pound for each pound of excess load when the excess is over 4,000 pounds but not over 5,000 pounds; 10 cents per pound for each pound of excess load when the excess is over 5,000 pounds. However, the court shall have discretionary power as to the amount of the fine within the aforesaid schedule and may impose the fine or jail sentence provided by law for a misdemeanor where at the time of the violation either the motor vehicle, motor vehicle and semitrailer, or trailer did not exceed the total weight which would be lawful for each such unit by a proper distribution of the load upon the various axles supporting each such unit.

Bypass of scales or weighing station.

(d) Any driver or owner of any vehicle who knowingly fails to stop at or who knowingly bypasses any scales or weighing station is guilty of a misdemeanor.

Marked vehicles of officers.

(e) No agent or authorized representative of the state highway department or a county road commission shall stop any truck or vehicle in movement upon any road or highway within the state for any purpose, unless the agents or authorized representatives are driving a duly marked vehicle, clearly showing and denoting the branch of government they represent.

Failure to stop on request of authorized person.

(f) Any driver or owner of any vehicle who knowingly fails to stop when requested or ordered to do so by any police officer, or any duly authorized agent of the state highway department, or a representative or agent of a county road commission, authorized to require the driver to stop and submit to a weighing of his vehicle and load by means of a portable scale, is guilty of a misdemeanor.

VEHICLE EQUIPMENT SAFETY COMPACT

ARTICLE I

Findings and Purposes

(a) The party states find that:

(1) Accidents and deaths on their streets and highways present a very serious human and economic problem with a major deleterious effect on the public welfare.

(2) There is a vital need for the development of greater interjurisdictional cooperation to achieve the necessary uniformity in the laws, rules, regulations and codes relating to vehicle equipment, and to accomplish this by such means as will minimize the time between the development of demonstrably and scientifically sound safety features and their incorporation into vehicles.

(b) The purposes of this compact are to:

(1) Promote uniformity in regulation of and standards for equipment.

(2) Secure uniformity of law and administrative practice in vehicular regulation and related safety standards to permit incorporation of desirable equipment changes in vehicles in the interest of greater traffic safety.

(3) To provide means for the encouragement and utilization of research which will facilitate the achievement of the foregoing purposes, with due regard for the findings set forth in subdivision (a) of this Article.

(c) It is the intent of this compact to emphasize performance requirements and not to determine the specific detail of engineering in the manufacture of vehicles or equipment except to the extent necessary for the meeting of such performance requirements.

ARTICLE II

The Commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party states. codes embodying performance requirements or restrictions for any item or items of equipment covered in the report, which in the opinion of the Commission will be fair and equitable and effectuate the purposes of this compact.

(c) Each party state obligates itself to give due consideration to any and all rules, regulations and codes issued by the Commission and hereby declares its policy and intent to be the promotion of uniformity in the laws of the several party states relating to equipment.

(d) The Commission shall send prompt notice of its action in issuing any rule, regulation or code pursuant to this Article to the appropriate motor vehicle agency of each party state and such notice shall contain the complete text of the rule, regulation or code.

(e) If the constitution of a party state requires, or if its statutes provide, the approval of the legislature by appropriate resolution or act may be made a condition precedent to the taking effect in such party state of any rule, regulation or code. In such event, the commissioner of such party state shall submit any Commission rule, regulation or code to the legislature as promptly as may be in lieu of administrative acceptance or rejection thereof by the party state.

(f) Except as otherwise specifically provided in or pursuant to subdivisions (e) and (g) of this Article, the appropriate motor vehicle agency of a party state shall in accordance with its constitution or procedural laws adopt the rule, regulation or code within six months of the sending of the notice, and, upon such adoption, the rule, regulation or code shall have the force and effect of law therein.

Any such finding shall be subject to review by such procedure for review of administrative determination as may be applicable pursuant to the laws of the party state. Upon request, the Commission shall be furnished with a copy of the transcript of any hearings held pursuant to this subdivision.

In determining the number of such registrations, the Commission may employ such source or sources of information as, in its judgment present the most equitable and accurate comparisons among the party states. Each of the Commission's budgets of estimated expenditures and requests for appropriations shall indicate the source or sources used in obtaining information concerning vehicular registrations.

(c) The Commission shall not pledge the credit of any party state. The Commission may meet any of its obligations in whole or in part with funds available to it under Article III (h) of this compact, provided that the Commission takes specific action setting aside such funds prior to incurring any obligation to be met in whole or in part in such manner. Such variances shall be allowed where a literal application or enforcement of the regulations would result in practical difficulty or unnecessary hardship and the relief granted would not be contrary to the public interest, but would do substantial justice and be in accordance with the spirit of the regulations of this act: Provided, however, That any variance may be allowed subject to any reasonable conditions or condition subsequent that the board of appeals may deem necessary to effectuate the purposes of this act. Nothing in this section authorizes the allowance of any variation which will conflict with any general zoning ordinance or regulation of any political subdivision, except such as is adopted exclusively for airport zoning purposes.
